

Comunidades Latinas Unidas en Servicio (CLUES)

July 10, 2016

"The Adopting the National Industry Standards has helped CLUES show to our community that we are committed to providing the highest quality homeownership education to our clients. People trust this quality and leave our offices as better-informed consumers. Our reputation grows as past clients tell their friends and family about our services. Adopting National Industry Standards has also provided opportunities for our staff to receive continuing education so that they are able to be better educators during our counselling sessions and classes.

Grace Grinager
Development and Communications Associate
