Introduction—
Homeownership Done Right®
As the link between sustainable homeownership and quality counseling and education becomes more and more clear, stakeholders across the housing industry agree that there is a vital need to ensure that consistently high-quality counseling and education become the norm across the nation. We call it “Homeownership Done Right®”—three simple words which are embodied in the National Industry Standards for Homeownership Education and Counseling. Simply put, the National Industry Standards are a set of training and performance benchmarks designed to promote increased quality and reliability in the delivery of homeownership education and counseling programs. In practice, they provide a common industry roadmap for excellence that delivers confidence to homebuyers and which instills professionalism and credibility among and across the diverse stakeholders who are part of the homeownership experience.

Creating industry-wide standards for homeownership counseling and education is a basic idea, but one that has far-reaching benefits. By adopting the National Industry Standards, homeownership counseling organizations demonstrate their belief in the importance of maintaining a high level of expertise on the part of their counselors and educators and of ensuring that all clients receive consistent, quality service. Likewise, by supporting the Standards, Housing Finance Agencies, other government entities, regional and national lenders, mortgage insurers and GSEs demonstrate accountability and commitment towards providing the greatest chance for sustainable homeownership. In turn, consumers gain confidence knowing that organizations that adopt and follow the Standards can be counted on to provide reliable information and professional service that has the homebuyer’s best interests in mind. Put it all together, and you get “Homeownership Done Right®.”

3. **Training:** As soon as possible but no later than within 12 months of being hired, foreclosure intervention counselors will obtain minimum training equivalent to no less than 30 hours of facilitated instruction, utilizing a variety of methods including lecture, interactive, demonstration, on-line and case study.

   - **Recommended Benchmark:** Those counselors new to foreclosure intervention and default counseling should (prior to seeing clients) be involved in an on-the-job training/coaching/mentoring program for at least 90 days. To best meet the client’s needs in this highly specialized field, facilitated training in foreclosure intervention and default counseling should be completed within six months and no later than one year to obtain the competency and skills listed under the Core Operating Standards.
4. **Certification:** Certification is considered critical in the industry. Subsequent to the requisite training, a comprehensive exam consisting of approximately 100 questions must be administered with a demonstrated proficiency of 80% passing. The exam will cover foreclosure intervention counseling competency content meeting the standards listed under the Core Operating Standards and demonstrated in the related activities identified in Exhibit D herein.

- **Recommended Benchmark:** Certification should be completed as soon as reasonably possible, but no later than within 18 months of employment.

5. **Continuing Education:** Complete a minimum of 10 hours of continuing education annually in subjects primarily related to the core content and delivery of foreclosure intervention and default counseling.

7. **Code of Ethics and Conduct Statement:** Sign and adopt the written National Industry Standards Code of Ethics and Conduct policy that specifically addresses any real and apparent conflicts of interest, guidelines for professional behavior, privacy and confidentiality, payment for services, consultation, referrals, quality assurance and integrity.

**Performance Standards**

1. **Delivery:** Perform individual, personalized foreclosure intervention and default counseling to clients.

- **Recommended Benchmark:** Content, delivery and format of the counseling is tailored to meet the needs of the client. Content and delivery should be done in a culturally competent manner and in the preferred language of the client. Use of a translator or referral to an agency that provides adequate service in the appropriate language is recommended.

- **Recommended Benchmark:** Clients should be counseled immediately (if possible) particularly when there is a high degree of certainty...
that foreclosure is imminent. At a minimum, upon request, clients should receive acknowledgement of inquiry within 48 hours of initial contact. When initial contact is made, clients should be assessed to determine the status of the client’s mortgage and client urgency. Those clients that have a high degree of foreclosure risk should be prioritized for appointments.

- **Recommended Benchmark:**
  Foreclosure intervention counselors must complete appropriate intake of client information to make proper and timely recommendations to the client to assist in avoiding foreclosure. Counselors must provide a comprehensive written action plan (see Exhibit E) to the client summarizing a statement of the problem, steps to be taken by the client, steps to be taken by the counselor and the timeline necessary to accomplish these tasks.

- **Recommended Benchmark:**
  Foreclosure intervention counselors should always instruct the client of the importance of making and keeping contact with the lender. Where possible, the counselor should attempt to contact the lender on behalf of the client to assess status and to further inform the lender of the proposed recommendations as specified in the written action plan (see Exhibit E).

- **Recommended Benchmark:**
  Active, open client files should be closely monitored, with timely follow-up in accordance with the stated action plan. When no contact from the client has taken place for three consecutive months, the file may be classified as inactive.

- **Recommended Benchmark:**
  Where there is no mortgage delinquency, foreclosure intervention counselors should provide basic financial management or credit counseling and encourage further homeownership education as a deterrent to future mortgage default.

- **Recommended Benchmark:**
  Client satisfaction surveys are used to evaluate the effectiveness of the counseling.

2. **Expected Counseling Outcome:** Upon completion of foreclosure intervention counseling, clients will understand the various options available to assist them to avoid foreclosure, the need to keep constant communication with their lender and will have received a written action plan (see Exhibit E) outlining the necessary steps to achieve their desired objectives. After counseling, if the client determines that either they cannot afford to keep their home or no longer desire to keep their home, they will receive information relative to each of these options and how this action might result in civil and/or tax liability.
3. Recordkeeping:
Collect and maintain specific information from clients in accordance with all laws and governing organizations (i.e., HUD, Intermediary, etc.)

- **Recommended Benchmark:** An intake form should be completed and collected with client profile information to include contact information, services sought/provided, household size, ethnicity (optional), and household income. Additional information to collect from the client is outlined in Exhibit D.

- **Recommended Benchmark:** Aggregate information for clients should be maintained including total number of persons served and other demographic information.

- **Recommended Benchmark:** A checklist should be utilized to ensure files are consistently maintained and meet reporting standards and quality assurance.

- **Recommended Benchmark:** Files should be maintained in secured file cabinets and/or electronically in a secure data system in order to protect client privacy.

- **Recommended Benchmark:** Files should be maintained for a minimum of three years. Longer file retention requirements may be required if the household has received grant or loan assistance through state or federal subsidy programs. At the time of disposal, files should be shredded or electronic copies should be deleted.

- **Recommended Benchmark:** An electronic method in place for collecting reporting data may be as basic as an Excel spreadsheet or Access database application that captures needed data fields from each client, but preferably should be a software application compliant with HUD’s CMS vendor list or equivalent. Visit www.hud.gov and refer to HUD’s CMS vendor list.

5. Service Thresholds: Establish referral networks for individuals and families seeking services that the foreclosure intervention counselor does not provide or possess sufficient competency to adequately and effectively deliver.
**Recommended Benchmark:** The Department of Housing and Urban Development (HUD) maintains a list of organizations and corresponding services (www.hud.gov). In addition, legal aid, tax professionals and other state or local agencies that may provide needed services aligned with foreclosure intervention including rescue funds should be sought.

National Industry Standards
Code of Ethics and Conduct for
Homeownership Professionals
The National Industry Standards Code of Ethics and Conduct for Homeownership Professionals* is a voluntary, self-governing standard for professional performance/conduct for homeownership counselors and educators that provide homeownership education and counseling services to consumers.

The Code of Ethics and Conduct for Homeownership Professionals offers a set of values and principles to guide conduct and decision-making in the homeownership education and counseling field.
